Height: 24 cm (9.4")

Width: 18 cm (7.1")

Description

Mixed Media on CanvasPrisca explores femininity through a female figure in a dreamy, contemplative state, with elements of both strength and vulnerability. The subject appears to be caught between a world of fantasy and reality, with layers of texture and colour enhancing her complex and emotional presence. The use of soft pastel hues alongside darker tones creates a sense of inner tension and duality in the character. This evocative work emphasise femininity, introspection and the subtleties of human emotion.
